

Dry Creek - Payette County

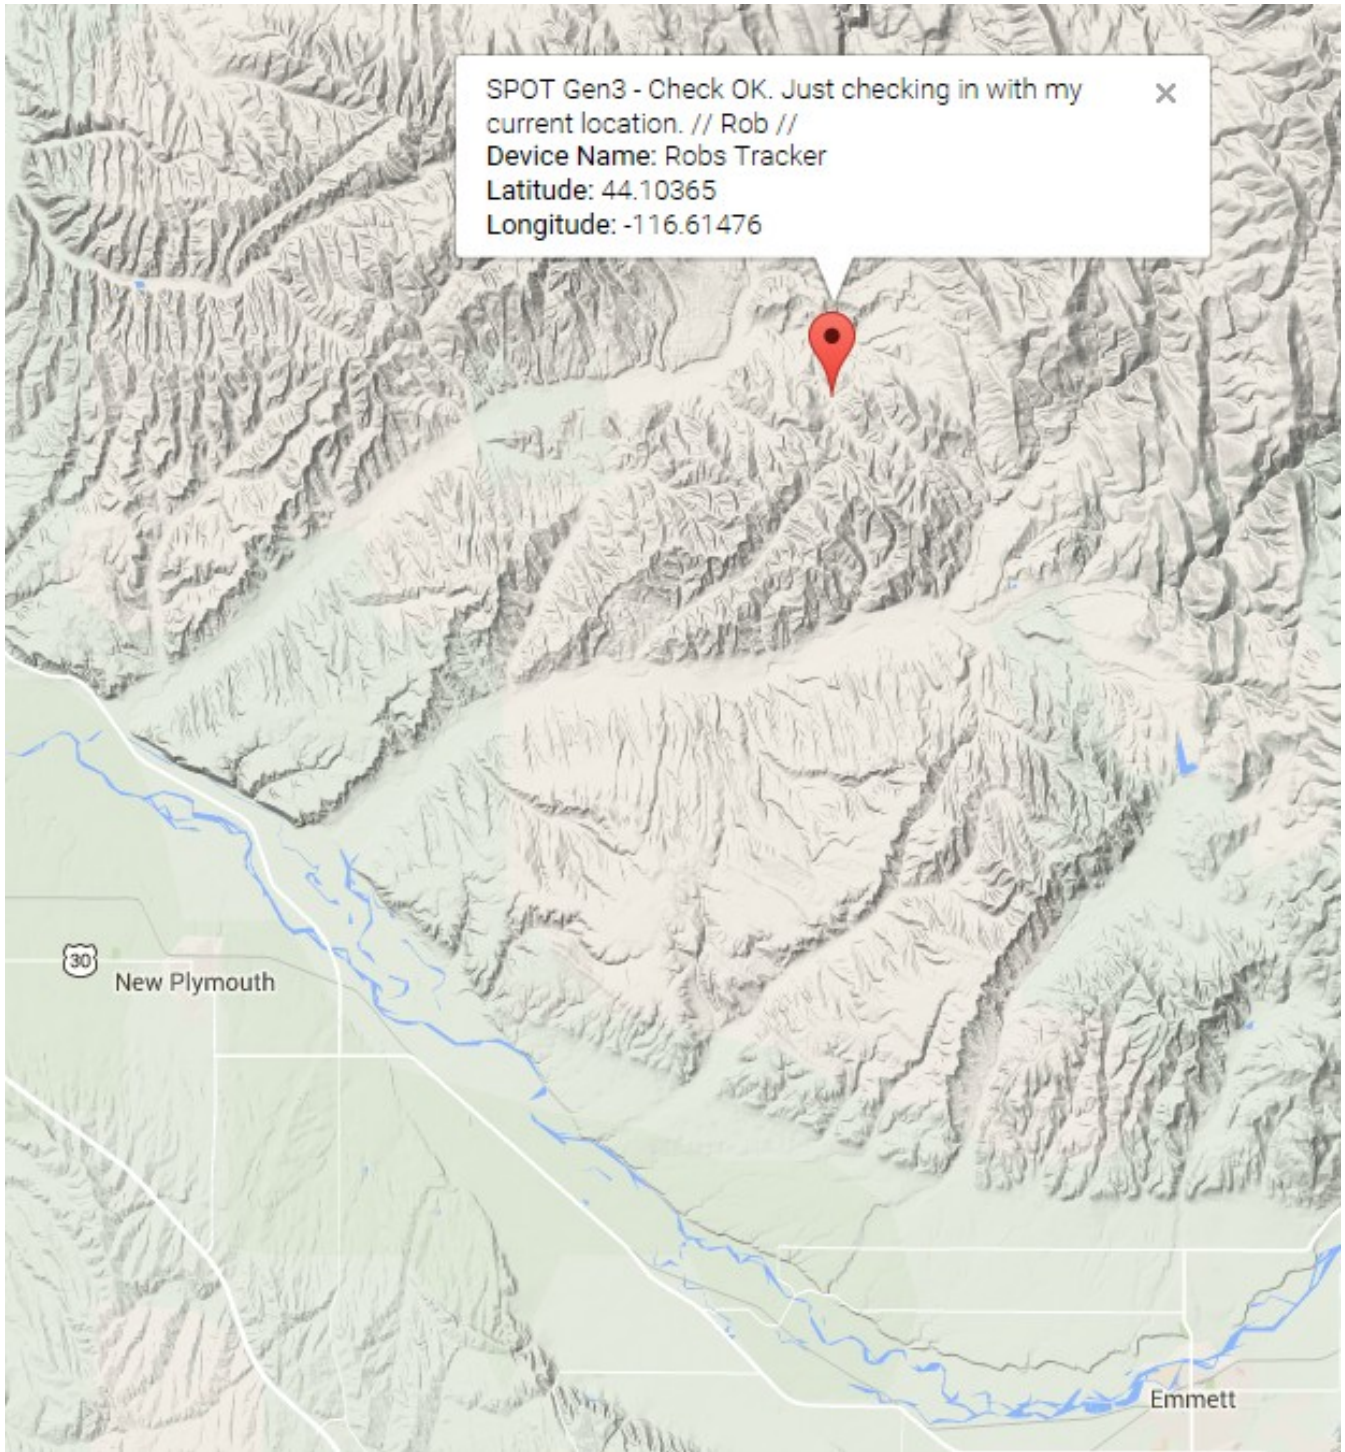

From 52 take a right at Little Willow until you come to Dry Creek Rd. Turn right on Dry Creek rd. About a mile or two you will see a wide spot where we park. If you miss Dry Creek Road you will come to a ranch with cattle guards, turn around!

Sure doesn't feel like March around here. The foot hills are pretty dry. Pray for rain! Still - it does make for nice riding. Joanie and Dusty followed me to the parking area where we were to meet Rob, who missed the turnoff. I knew he'd find us if I left him a very descriptive note that said..."East." He did run into us eventually. Probably due to my outstanding directions. LAB

SPOT Gen3 - Check OK. Just checking in with my ×
current location. // Rob //
Device Name: Robs Tracker
Latitude: 44.10365
Longitude: -116.61476

 New Plymouth

Emmett

There are a number of rides you can take in this area, from climbing to the top of one of the hills for a great view to staying low along the roads. It depends on wind, weather and how in-shape you and your horse are.
