

Loop rides out of the Yellow Jacket Camp ground

Yellow Jacket [101] and Tyndall [107] 15 mile loop – This trail combination climbs the mountains west of the camp ground. Climb up Yellow Jacket and return on Tyndall.

This ride climbs quickly from 5200 feet at the camp ground to 7200 feet at the saddle. The trail winds through burned and unburned areas and provides some great views. There is little water the first half of Yellow Jacket, but a good spot for the stock to drink on the west side of the saddle. The Tyndall trail passes through a canyon with great rock formations and a much smaller climb and descent. There are a number of bridges on this trail and most of it is unburned.

Telephone Ridge [112]) and Rice Peak & Lake [102 & 103]) making an 18 mile loop
