Additional Directions (updated 2016)

After passing Dan's Ferry Service on the river, proceed on thru Murphy on Highway 45 to the Silver City Road.

Turn right on the Silver City Road and go approximately 6 miles.
(You are still on the pavement, if the road has turned to dirt, turn around) At the "Stage Road Junction Sign" Turn to the right (North) onto a dirt road that takes you to the trail head and corrals. **GPS 43.10950, -116.60297**

A number of rides are possible out of this trail head, one example is highlighted on the map on the next page. This ride takes about four hours around 11 miles with a nice place to take a break in the middle by an old cabin with a corral and good source of water for the horses.
